

NSObject

<CBPeripheralDelegate>

BTSendRec

```
classDiagram
    class NSObject
    class BTSendRec
    class CBPeripheralDelegate["<CBPeripheralDelegate>"]
    NSObject <|-- BTSendRec
    BTSendRec <|-- CBPeripheralDelegate
```

The diagram illustrates the class hierarchy and protocol implementation for BTSendRec. BTSendRec is a subclass of NSObject, indicated by a solid line with an open arrow pointing from BTSendRec to NSObject. Additionally, BTSendRec implements the CBPeripheralDelegate protocol, shown by a solid line with an open arrow pointing from BTSendRec to the protocol box labeled <CBPeripheralDelegate>.
